Disability Rights of West Virginia (DRWV) is the federally mandated protection and advocacy system for people with disabilities in West Virginia. One of DRWV’s grants is PAVA - Protection and Advocacy for Voting Access. The PAVA program allows DRWV to ensure that individuals with disabilities can access full participation in the election process.

Title II of the American with Disabilities Act (ADA) requires state and local governments (public entities) to ensure that people with disabilities have a full and equal opportunity to vote. The ADA’s provisions apply to all aspects of voting, including polling places. People with disabilities must have the opportunity to be full participants in an integrated civic event.

On August 23, 2018, DRWV completed exterior accessibility monitoring of all 11 polling sites in Pendleton County. The exteriors of 4 of these sites are easily made temporarily accessible on Election Day by modifying the polling site entrance or route, designating accessible parking, and/or hanging appropriate signage. There are 3 other sites that would require more extensive modifications to be made accessible and moving these precincts to a different location may be the easier option:

- Schmucker School House
- Thorn Creek Youth Center
- Sugar Grove Rescue Squad

The tables on the following pages list the ADA standards, if applicable, for each area we monitored, the issues noted at each site, if any, and suggestions for meeting ADA compliance on election days.

</tbody>
</table>
**502.1** Car and van parking spaces shall comply with 502. Where parking spaces are marked with lines, width measurements of parking spaces and access aisles shall be made from the centerline of the markings.  

EXCEPTION: Where parking spaces or access aisles are not adjacent to another parking space or access aisle, measurements shall be permitted to include the full width of the line defining the parking space or access aisle.  

**502.2** Vehicle Spaces. Car parking spaces shall be 96 inches (2440 mm) wide minimum and van parking spaces shall be 132 inches (3350 mm) wide minimum, shall be marked to define the width, and shall have an adjacent access aisle complying with 502.3.  

EXCEPTION: Van parking spaces shall be permitted to be 96 inches (2440 mm) wide minimum where the access aisle is 96 inches (2440 mm) wide minimum.  

If more than 25 parking spaces are provided to voters, see 208.2 for the number of accessible parking spaces required. |
| **Suggestions for ADA Compliance** | Use accessible signage to designate a parking space on Election Day. If only one space is designated, it must be a van accessible space with aisle. |
Harold Miller (South Fork) Ruritan Building: 1 issue. Per Clerk, voters enter main, front doors.

| Issue 1                          | Door hardware is inaccessible.  
|                                 | Front door is inaccessible due to knob handle that requires twisting of the wrist. |

| 2010 ADA Standards for Accessible Design Requirements | 309.4 Operable parts shall be operable with one hand and shall not require tight grasping, pinching, or twisting of the wrist. The force required to activate operable parts shall be 5 pounds (22.2 N) maximum.  
|                                                 | 404.2.7 Handles, pulls, latches, locks, and other operable parts on doors and gates shall comply with 309.4. Operable parts of such hardware shall be 34 inches (865 mm) minimum and 48 inches (1220 mm) maximum above the finish floor or ground. Where sliding doors are in the fully open position, operating hardware shall be exposed and usable from both sides. |

| Suggestions for ADA Compliance | Have the door propped open during voting; use a temporary doorbell or ballot call alert system; use a doorknob gripper with levers; or have poll worker stationed at the door. |

North Fork Elementary: No exterior issues. Per Clerk, voters enter main, front doors.

Pendleton County Courthouse: No exterior issues. Per Clerk, voters enter door on the left side of the building.

Pendleton County High School: 3 issues. Per Clerk, voters enter doors H of the Commons building.
| Issue 1 | Accessible parking is not on the shortest route to voter entry.  
There are designated parking spaces near the main entrance of this school; however, voters enter towards the right end of the building. |

Several temporary solutions have been offered for making polling sites across Pendleton County accessible, and many of these solutions can easily be found online or at your local hardware store. An additional resource is West Virginia University’s Center for Excellence in Disabilities WVATS (West Virginia Assistive Technology System) program. This program has portable ramps to loan for free, although pickup and drop-off of the ramps are required. Enclosed is a brochure with information for contacting WVATS.

The 2010 ADA Standards for Accessible Designs referenced in this report can be found online at: https://www.ada.gov/regs2010/2010ADASTandards/2010ADASTandards_prt.pdf

Four other valuable resources have been included for your reference:

- ADA Checklist for Polling Places

The ADA requires that public entities ensure that people with disabilities can access and use all voting facilities. Because a mix of public and private
facilities are used as polling places, public entities may ensure Election Day accessibility of a polling place by using low-cost, temporary measures, such as portable ramps or door stops, rather than making permanent modifications to a building. If temporary measures will not fix a barrier, and public entities are unable to make a permanent modification to fix the barrier, then the public entity must look for an alternative, accessible polling place.
